

Are you aware you now need to carry out regular assessments for the Legionella bacteria?

LTM Compliance, part of the AquaB Group will currently do this for you for £82.50 + VAT (£99), instead of the normal price of £235 + VAT (£282) for an individual property.

This includes scheduled and unscheduled inspections when plumbing is modified or added to the property. They adhere to all the latest ACoP L8 requirements including water samples couriered to their AKAS accredited laboratories for analysis and compliance records held for the required 5 or more years.

Clients automatically qualify for their 5 year no-obligation service whereby the following 4 years cost just £74.50 + vat.

To book your programme phone **0203 307 0566** and quote our discount code **SLA64**.
